

# CYBERSECURITY AWARENESS TRAINING AND SIMULATED PHISHING PLATFORM

# CYBERSECURITY AWARENESS PROGRAM AND SIMULATED PHISHING PLATFORM

## HELPING YOU MANAGE THE ONGOING PROBLEM OF SOCIAL ENGINEERING

Old-school security awareness training doesn't hack it anymore. Today, your employees are frequently exposed to sophisticated phishing and ransomware attacks.

### **BASELINE TESTING**

We provide baseline testing to assess the Phish-prone™ percentage of your users through a free simulated phishing attack.

### **TRAIN YOUR USERS**

The world's largest library of cybersecurity awareness training content; including interactive modules, videos, games, posters and newsletters. Automated training campaigns with scheduled reminder emails.

### **PHISH YOUR USERS**

Best-in-class, fully automated simulated phishing attacks, hundreds of templates with unlimited usage, and community phishing templates.

### **SEE THE RESULTS**

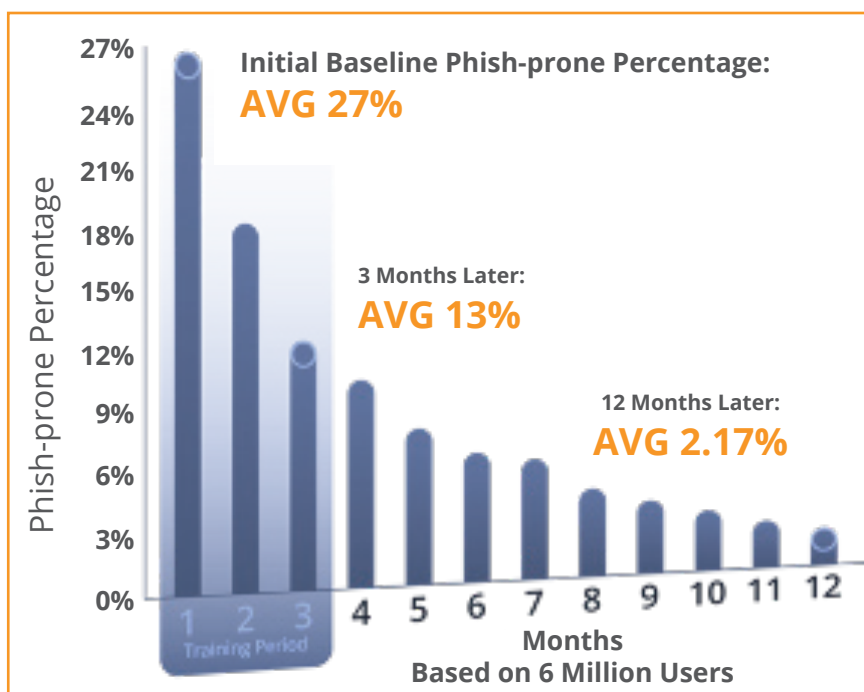

Enterprise-strength reporting, showing stats and graphs for both training and phishing, ready for management. Show the great ROI!

## THE SYSTEM REALLY WORKS!

KnowBe4 analyzed 6 million users over the course of 12 months, and the 2018 research uncovered some surprising results. The overall industry initial Phish-prone percentage benchmark turned out to be a troubling 27%. Fortunately, the data showed that this 27% can be brought down more than half to just 13% in only 90 days by deploying new-school cybersecurity awareness training. The 365-day results show that by following these best practices, the final Phish-prone percentage can be minimized to 2.17% on average.

See how your company's phish-prone percentage compares to your peers! Industry Benchmarking feature included with your subscription.

## WHAT'S NEXT?

Get started on your IT transformation today. Learn about how our customizable consulting services can help your business stay on track.

## OTHER CYBERSECURITY SERVICES:

Best in class Cybersecurity depends on multiple layers, and below are some of the cybersecurity offerings we provide our clients:

### SERVICES:

- Security Risk Assessment
- Security Awareness Training
- Vulnerability Management
- Security Monitoring + Response • Incident Response

### CONSULTING

- Information Security Program Development / Advisement
- Policy Development / Advisement
- Risk Management Program Development / Advisement
- Supply Chain Risk Management Development / Advisement
- vCISO (Virtual Chief Information Security Officer)

## ABOUT EDAFIO

We take the time to get to know your business inside and out to better serve you. By investing in relationships with our clients, we're able to meet challenges as they arise and offer the best custom solutions as technology changes.

Edafio has been successfully assisting medium to enterprise-sized organizations in selecting, implementing, and optimizing IT consulting and management, cybersecurity, healthcare consulting, and cloud computing solutions across multiple industries from our offices in Central and Northwest Arkansas.
