

THE EDAFIO DIFFERENCE

EXPLORE THE EDAFIO DIFFERENCE AND HOW I.T. CAN BECOME A STRATEGIC ADVANTAGE FOR YOUR BUSINESS.

The Edafo Difference goes beyond words. It is a culture embraced by all of our associates. It is our drive to enable our client's success. It is our focus to treat each other, and especially our clients, with humility and respect and it is a relentless focus on integrity in all that we do.

STAY FOCUSED ON YOUR BUSINESS

By outsourcing your managed services to Edafo, you can help your firm stay focused on revenue-generating activities and innovation. Let us deal with complex IT situations.

SECURITY & PEACE OF MIND

We can help lower the risk of your data and your customers' sensitive information from a security breach event and take quick action if one does occur.

PRODUCTIVITY & SCALABILITY

We proactively manage your technology needs and offer solutions to help when you need to scale up or down. We will implement systems to make your team and your business processes more agile, efficient and faster.

ACCESS TO IT PROFESSIONALS

While most local resources tend to be limited in the depth and quality of their capabilities, larger national firms lack responsiveness and flexibility. Our engineers and consultants are the finest in their field, as well as your neighbors who provide a business-oriented approach rather than simply solving and preventing problems.

DELIVERED AT A LOCAL COMMUNITY LEVEL

We serve our clients in the same local community where we live and work with a spirit of partnership, personal service and unparalleled professionalism.

MAKE WISE IT INVESTMENTS

We customize solutions for every client - from custom-built cloud-computing solutions to the best preventative and proactive cybersecurity techniques. We are able to solve your problems and help you keep your clients, customers, and patients happy.

RECEIVE FASTER RESPONSE TIME

Aside from monitoring your IT infrastructure, you have access to our responsive and knowledgeable staff that is available at your convenience for any IT problem or question you have - 24/7/365, allowing your company to have fast resolutions to any IT challenge.

REGULATION & COMPLIANCE

Many companies are regulated because they deal with user data and must comply with privacy laws. As the laws change over time, it requires careful monitoring and updates. We can help you process and report compliance requirements.

WHAT WE DO

With approximately 110 employees, Edafio Technology Partners is the largest Arkansas-based Managed Services Provider operating one of the most extensive groups of IT engineers and specialists in the region. They help build, support, and protect their clients' businesses through implementing and optimizing IT consulting and management, cloud computing solutions, cybersecurity, and healthcare consulting across multiple industries from their offices in Central and Northwest Arkansas. Edafio is driven by and owes their success to living their core values, which begin with their commitment to clients' success.
