

HEALTHCARE

CONSULTING

YOUR TRUSTED PARTNER IN DELIVERING VALUE-BASED TECHNOLOGY SOLUTIONS

Why Choose Edafio

.....

In the realm of information technology consulting and services, success is defined by local presence, flexibility and responsiveness. We are committed to providing the best of both worlds.

Our skilled IT team offer business-oriented solutions, and our unwavering commitment to client success, integrity, and collaboration ensures a seamless experience.

Value-Based Healthcare

.....

In a rapidly changing healthcare landscape, delivering patient-centered, high-value care is essential for healthcare providers seeking to enhance patient outcomes and reduce costs.

We embrace the concept of value-based healthcare, where information sharing and workflow efficiency drive quality and value.

Our Approach to Healthcare Excellence

.....

Edafio senior healthcare professionals and consultants possess deep insights into clinical models, healthcare technology, and regulatory compliance.

With over a decade of experience partnering with leading healthcare organizations, we are dedicated to contributing to our clients' clinical excellence and overall success.

Ready to elevate your organization's operations and deliver value-based care?

Contact us for a consultation and discover how Edafio can transform your organization. Together, let's navigate the healthcare industry's complexities and achieve remarkable results.

EDAFIO

Empowering IT. Powered by people

As the healthcare industry continues to evolve, the need for technology solutions that enhance patient care, streamline operations, and ensure regulatory compliance is more crucial than ever. We bridge the gap between cutting-edge technology and healthcare providers' unique challenges, offering a suite of services designed to empower healthcare organizations with success.

COMPREHENSIVE HEALTHCARE SERVICES TAILORED TO YOUR NEEDS

Multi-Year Quality Strategy Planning:

Craft a comprehensive quality strategy aligned with your goals for continuous improvement and superior patient outcomes.

HIPAA Compliance Support:

Navigate the complex regulatory landscape with confidence. Our consultants provide HIPAA compliance assessments, policy development, training, and ongoing support to safeguard protected health information.

Application Administration:

Maximize application value through effective administration and support, including user management, configuration, and troubleshooting.

Chart Reviews:

Documentation guidelines have changed over the last several years and our certified, expert consultants will give you valuable insight into your providers compliance and chart accuracy by performing in-depth chart reviews

Practice Workflow Analysis:

Optimize your practice operations with tailored workflow solutions, enhancing efficiency and performance.

EMR and PM Vendor Management:

Leverage our expertise in EMR and PM systems for seamless implementation, integration, and ongoing support. Optimize system performance and user satisfaction through vendor management services.

Security Risk Assessment:

Strengthen your cybersecurity infrastructure. Identify vulnerabilities, develop mitigation strategies, and enhance your security posture with our thorough SRA.

Information Blocking Assessment:

Ensure compliance with information blocking regulations by assessing and optimizing your data sharing practices.
